These are some of my technical skills

JavaScript / TypeScript
ReactJS / Next.js / TanStack / Vite
Zustand / Redux / Context API
Supabase / Firebase / MongoDB
Tailwind / PostCSS / Framer / GSAP
Zod / Prisma ORM / tRPC
Node.js / Express.js / Axios
PHP / WordPress
Playwright / Postman
Git / GitHub Actions
Linux / WSL2 / Bash
BDD / TDD

Experience

Three Mangos Agency, **Front-End Developer**

April 2024 - Today

- Built fully functional and mobile-first websites using **React** with modern libraries and frameworks such as **NextJS**, **Vite**, **TanStack**, and **T3Stack**.
- Implemented and created **System Designs** using **CSS frameworks**.
- Implemented **Performance Optimization** with lazy loading, code splitting, and reducing HTTP requests.
- Implemented **Advanced State Management** using Redux and Zustand for efficient global state handling.
- Implemented **API Integration** by consuming RESTful APIs including authentication and error handling.
- Implemented **Database Integration** connecting frontend applications with Firebase, Supabase, or SQL/NoSQL databases.
- Implemented **Testing & Code Quality** by writing unit and integration tests with Jest or Playwright.
- Implemented **CI/CD** workflows with GitHub Actions from scratch.
- Implemented **Internationalization** (i18n) by setting up multilingual support with libraries like react-intl or i18next.
- Implemented **Analytics & Monitoring** by integrating Google Analytics, Hotjar, or user tracking tools.
- Led **live demos** for decision-making with stakeholders.

MediaMonks, QA Analyst

December 2018 - March 2024

- Conducted **functional and visual testing** across web and mobile applications to ensure flawless user experiences.
- Implemented **shift-left testing strategies** to enhance efficiency and improve development deliverables.
- Designed and maintained **comprehensive test documentation, processes, and reports** to optimize workflows.
- Developed and executed **detailed test plans and cases**, ensuring thorough validation of features.
- **Automated API testing** using Postman, streamlining validation processes and improving reliability.
- Wrote, executed, and maintained **SQL queries** to verify data integrity within relational databases.
- Assisted in building and maintaining **end-to-end automated tests** using Playwright.
- Led **live demos and defect reviews** with stakeholders, providing insights and actionable solutions.
- Managed tasks efficiently using **Jira and X-Ray**, while adhering to Agile methodologies for iterative development.

Education

edX, Udemy and Platzi, Online Education

2019 - Today, *Finished*

- CS50's Introduction to Computer Science
- CS50's Web Programming with Python and JavaScript
- Databases: Relational Databases and SQL
- Automated Software Testing: Unit Testing, Coverage Criteria
- IUx: Preventing Miscommunication in Virtual Work
- IBM: Soft Skills: Solve Problems w/ Creative & Critical Thinking
- Frontend Architecture and Web Design
- Fundamentals of JavaScript
- Advanced JavaScript for Programmers
- Progressive Web Apps with React.js
- UX Process Management Course
- Software Quality Certification (QA) (ISTQB CTFL)
- Postman: The Complete Guide - REST API Testing
- Cypress: E2E Automation Testing with JS
- Playwright: E2E Automation Testing with TS
- Tailwind CSS Start to Mastery with 18 Projects
- The Ultimate React Course 2024: React, Next.js, Redux & More
- Next JS: The Complete Developer's Guide.

Universidad Siglo XXI, University Education

2016 - 2019, *Buenos Aires - Argentina*

Degree - Real Estate Broker
Average - 8.2

Thank you for your time, let's talk!
