- » Postman: The Complete Guide - REST API Testing
- » Cypress: E2E Automation Testing with JS
- » Playwright: E2E Automation Testing with TS
- » Tailwind CSS Start to Mastery with 18 Projects
- » The Ultimate React Course 2024: React, Next.js, Redux & More
- » Next JS: The Complete Developer's Guide

About Me

I'm a developer with a strong background in software testing, merging an analytical mindset with a keen eye for detail to deliver high-quality solutions. My experience in QA helps me spot issues early, improve code and processes, and ensure every project is efficient, scalable, and well-structured.

I thrive on solving complex problems, optimizing workflows, helping my team, and creating seamless user experiences. Passionate about development and quality, I enjoy working in dynamic environments where I can continuously learn and contribute to building beautiful, reliable and high-performing applications.

Thank you for your time, let's talk!
